

Troop 19 and Troop 190 Norwalk Presents
Powahay District Scouts BSA Fall Camporee

CSI: HOYT

Crime Scout Investigators

October 18-20, 2019

Hoyt Scout Reservation, Redding CT

A look into Forensic Science and Law Enforcement

UPDATE
July 26, 2019

See how your patrol stacks up against the other patrols in the District in solving the mystery. Opening ceremony will begin with a crime scene which will set the stage for solving a crime scene mystery. The CSI Camporee will be organized into a number of activities where Scouts will learn how to gather and analyze evidence which they then can use to solve the mystery. Here's what we are working on!

- ❖ **Station 1 – Searching the Crime Scene and Evidence Collection:** Learn how to gather and preserve evidence from a crime scene. How would you locate, and catalogue evidence found over a wide area? Each patrol will need a digital camera to take photos.
- ❖ **Station 2 – Detective Work and Visiting the Morgue:** Learn some of the tools of a detective including timelines, reconstruction, organizing evidence, and chain of custody.
- ❖ **Station 3 – Eyewitness Evidence:** Try your hand at interviewing witnesses and suspects. How good are eyewitness observations? Do eyewitnesses make many mistakes?
- ❖ **Station 4 – Fingerprints:** Learn how to find and preserve fingerprints from a crime scene.
- ❖ **Station 5 – DNA Lab:** This lab helps them determine whose blood was left at the crime scene and what type of weapon may have been used based on the pattern of the blood splatter.
- ❖ **Station 6 – Trace Evidence Lab:** This lab will be used to identify evidence found on the victim.
- ❖ **Station 7 – Impressions Lab:** This lab will help to identify the footprints left behind at the crime scene.
- ❖ **Station 8 – Ballistics:** Learn to identify cartridge casings and bullets from their markings and determine from which vantage point and direction did a series of shots come from.
- ❖ **Station 9 – Photography:** Learn to take crime scene photographs. Each patrol will need a digital camera.
- ❖ **Station 10 – Forensic Science Lab:** Use of high-powered microscopes Scouts will exam slides to learn and study evidence just like professionals do.
- ❖ **Station 11 – Meet the Judge:** Scouts will learn about the judicial procedures in CSI with obtaining search warrants, subpoenas, and preparing evidence for a prosecutor to take to court.
- ❖ **Station 12 – The Wrecking Ball Inflatable:** Just for fun! Four Players climb atop their inflated pads. One of the players grabs the "Wrecking Ball" and hurls it at their opponent in an attempt to knock the player off of their inflated pad.
- ❖ **Closing Station – Making the Arrest!** Patrols will have 10 minutes to gather all of the forms they have completed from the stations to turn in and to complete the "Solving the Crime" sheet. The Suspect will be revealed and arrested!

Other Highlights:

- ◆ A salute to Police and Law Enforcement Agencies with Police Units for demonstrations.
- ◆ Ultimate Frisbee Tournament – Trophies and Disc give-a-ways. Eight Teams limit.
