

Sequassen Accomplishments **9/2001 – 7/2002**

Compiled by Sequassen Maintenance Committee
Tom Young, Chairman John Burke, Vice Chairman

This has been a banner year for Camp Sequassen. Due to the efforts of many groups and individuals including the Order of the Arrow, the Maintenance Committee, the Sequassen Alumni Association, and numerous troops, we have been able to complete the accomplishments listed below. The highlights of last year include building a new boat storage building (boathouse), installing three flagpoles in International Campsite, and installing shed dormers over all of the Dining Hall kitchen windows. This year, we also began three major projects, the climbing wall, Maxim Chapel, and extensive renovations to the Ranger's House, which we anticipate completing over the next year.

Special mention should be made of Ranger Dave Boyajian who single handedly completed many of the accomplishments listed below as well as starting or finishing many of the others. His love of Camp Sequassen is evident.
