Requirements for BSA Annual Health and Medical Records for Use at Resident Camps

Each Scout and adult staying in camp more than 24 hours must have a completed medical form on file at the Camp Health Lodge.

BSA requires a physical evaluation be completed **annually** for adults and Scouts attending resident camps. A health form signed by a licensed health care provider and dated within one year of the month attending camp must be on file at the camp's medical facility. The form is good through the last day of the month the physical was done, one year later.

The current BSA Annual Health and Medical Record, a three part (A, B and C) medical history and physical evaluation form, is required for all Scouts and adults attending resident camp. Additionally, Connecticut Yankee Council added an addendum to meet Connecticut DPH regulations. The CYC Addendum is required for all campers under 18 years of age to receive overthe-counter (OTC) drugs and products for the routine treatment of minor ailments and injuries and for issuing preventative topicals such as sun screen.

For a camper to carry his/her personal emergency medications (e.g., EPI pen, inhaler, Insulin, etc.) while at camp the State of Connecticut Department of Public Health requires a statement signed by the individual's medical provider authorizing self administration.

A fillable PDF of the current BSA medical form including the CYC Addendum and Authorization to Self Administer is available at: https://www.ctyankee.org/scout-info/boy-scout-resident-camp/

Experience has indicated that there are several essential areas that are often overlooked on the Annual Health and Medical Record forms, omissions that may render the form inadequate for camp. Below please find a checklist of three items which, if improperly completed, could make the form useless:

Part B2, Allergies/Medications - One line is to be filled out for each prescribed medication with the signature of <u>BOTH</u> the doctor and the parent at the bottom of the section. <u>The State of Connecticut requires both signatures for administration of medications.</u>
Part C, Examiner's Certification - Doctor's signature and other provider information must be complete. <u>A "stamped" signature is not acceptable.</u>
Date of the physical – Following the Doctor's signature, the physical form <u>MUST</u> be dated. If there is no date, there is no way to verify that the physical was conducted within 12 calendar months of the end date of the person's camp attendance.

Omission of any of these items nullifies the health form.

Note: Please make sure that the person's name is on every page of the health and medical record. This is especially important if you are faxing the form as pages do not always remain in proper order. A page without a name is not valid.

Annual Health and Medical Record

Personal Health and the Annual Health and Medical Record

Find the current Annual Health and Medical Record by using this QR code or by visiting www.scouting.org/health-andsafety/ahmr/.

The Scouting adventure, camping trips, high-adventure excursions, and having fun are important to everyone in Scouting—and so are your safety and well-being. Completing

the Annual Health and Medical Record is the first step in making sure you have a great Scouting experience. So what do you need?

All Scouting Events. All participants in all Scouting activities complete Part A and Part B. Give the completed forms to your unit leader. This applies to all activities, day camps, local tours, and weekend camping trips less than 72 hours. Update at least annually.

Part A is an informed consent, release agreement, and authorization that needs to be signed by every participant (or a parent and/or legal guardian for all youth

Part B is general information and a health history.

Going to Camp? A pre-participation physical is needed for resident, tour, or trek camps or for a Scouting event of more than 72 hours, such as Wood Badge and NYLT. The exam needs to be completed by a certified and licensed physician (MD, D0), nurse practitioner, or physician assistant. If your camp has provided you with any supplemental risk information, or if your plans include attending one of the four national high-adventure bases, share the venue's risk advisory with your medical provider when you are having your physical exam.

Part C is your pre-participation physical certification.

Planning a High-Adventure Trip? Each of the four national high-adventure bases has provided a supplemental risk advisory that explains in greater detail some of the risks inherent in that program. All highadventure participants must read and share this information with their medical providers during their pre-participation physicals. Additional information regarding high-adventure activities may be obtained directly from the venue or your local council.

Prescription Medication. Taking prescription medication is the responsibility of the individual taking the medication and/or that individual's parent or guardian. A leader, after obtaining all the necessary information, can agree to accept the responsibility of making sure a youth takes the necessary medication at the appropriate time, but the Boy Scouts of America does not mandate or necessarily encourage the leader to do so. Standards and policies regarding administration of medication may be in place at BSA camps. If state laws are more limiting than camp policies, they must be followed. The AHMR also allows for a parent or guardian to authorize the administration of nonprescription medication to a youth by a camp health officer or unit leader, including any noted exceptions.

Information and FAQs

Risk Factors. Scouting activities can be physically and mentally demanding. Listed below are some of the risk factors that have been known to become issues during outdoor adventures.

- Excessive body weight (obesity)
- Cardiac or cardiovascular disease
- Hypertension (high blood pressure)
- Diabetes mellitus
- Seizures
- Asthma

- · Sleep apnea
- · Allergies or anaphylaxis
- Musculoskeletal injuries
- Psychological and emotional difficulties

More in-depth information about risk factors can be found by using this QR code or by visiting www.scouting.org/health-and-safety/risk-factors/.

Questions?

Q. Why does the Boy Scouts of America require all participants to have an **Annual Health and Medical Record?**

A. The Annual Health and Medical Record (AHMR) serves many purposes. Completing a health history promotes health and awareness, communicates health status, and provides medical professionals critical information needed to treat a patient in the event of an illness or injury. It also provides emergency contact information.

Poor health and/or lack of awareness of risk factors has led to disabling injuries, illnesses, and even fatalities. Because we care about our participants' health and safety, the Boy Scouts of America has produced and required use of standardized annual health and medical information since at least the 1930s.

The medical record is used to prepare for high-adventure activities and increased physical activity. In some cases, it is used to review participants' readiness for gatherings like the national Scout jamboree and other specialized activities.

Because many states regulate the camping industry, the AHMR also serves as a tool that enables councils to operate day and resident camps and adhere to Boy Scouts of America and state requirements. The Boy Scouts of America's AHMR provides a standardized mechanism that can be used by members in all 50 states.

For answers to more questions, use this QR code or visit the FAQ page at www.scouting.org/health-and-safety/resources/ medical-formfags/.

Part A: Informed Consent, Release Agreement, and Authorization

Full name:	Sequassen week 1 2 3 4 5 6 7
Date of birth:	CubDayCamp 1Qnpc 2Esr 3OM 4Hyt 5Pwhy
Informed Consent, Release Agreement, and Authorization	
I understand that participation in Scouting activities involves the risk of personal injury, including death, due to the physical, mental, and emotional challenges in the activities offered. Information about those activities may be obtained from the venue, activity coordinators, or your local council. I also understand that participation in these activities is entirely voluntary and requires participants to follow instructions and abide by all applicable rules and the standards of conduct. In case of an emergency involving me or my child, I understand that efforts will be made to contact the individual listed as the emergency contact person by the medical provider and/or adult leader. In the event that this person cannot be reached, permission is hereby given to the medical provider selected by the adult leader in charge to secure proper treatment, including hospitalization, anesthesia, surgery, or injections of medication for me or my child. Medical providers are authorized to disclose protected health information to the adult in charge, camp medical staff, camp management, and/or any physician or health-care provider involved in providing medical care to the participant. Protected Health Information/Confidential Health Information (PHI/CHI) under the Standards for Privacy of Individually Identifiable Health Information, 45 C.F.R. §§160.103, 164.501, etc. seq., as amended from time to time, includes examination findings, test results, and treatment provided for purposes of medical evaluation of the participant, follow-up and communication with the participant's parents or guardian, and/or determination of the participant's ability to continue in the program activities. (If applicable) I have carefully considered the risk involved and hereby give my informed consent for my child to participate in all activities offered in the program. I further authorize the sharing of the information on this form with any BSA volunteers or professionals who need to know of medical conditions that may require special conside	I also hereby assign and grant to the local council and the Boy Scouts of America, as well as their authorized representatives, the right and permission to use and publish the photographs/film/videotapes/electronic representations and/or sound recordings made of me or my child at all Scouting activities, and I hereby release the Boy Scouts of America, the local council, the activity coordinators, and all employees, volunteers, related parties, or other organizations associated with the activity from any and all liability from such use and publication. I further authorize the reproduction, sale, copyright, exhibit, broadcast, electronic storage, and/or distribution of said photographs/film/videotapes/electronic representations and/or sound recordings without limitation at the discretion of the BSA, and I specifically waive any right to any compensation I may have for any of the foregoing. **Every person who furnishes any BB device to any minor, without the express or implied permission of the parent or legal guardian of the minor, is guilty of a misdemeanor. (California Penal Code Section 19915[a]) My signature below on this form indicates my permission. I give permission for my child to use a BB device. (Note: Not all events will include BB devices.) Checking this box indicates you DO NOT want your child to use a BB device. NOTE: Due to the nature of programs and activities, the Boy Scouts of America and local councils cannot continually monitor compliance of program participants or any limitations imposed upon them by parents or medical providers. However, so that leaders can be as familiar as possible with any limitations, list any restrictions imposed on a child participant in connection with programs or activities below. List participant restrictions, if any:
I understand that, if any information I/we have provided is found to be inaccurate, it may limit and/Philmont Scout Ranch, Philmont Training Center, Northern Tier, Sea Base, or the Summit Bechtel Reand weight requirements and restrictions, and understand that the participant will not be almet. The participant has permission to engage in all high-adventure activities described, except as parent or guardian's signature is required.	eserve, I have also read and understand the supplemental risk advisories, including height llowed to participate in applicable high-adventure programs if those requirements are not

Part C: Pre-Participation Physical

This part must be completed by certified and licensed physicians (MD, DO), nurse practitioners, or physician assistants.

Date of birth: CubDayCamp 1Qnpc	2Esr 3OM 4Hyt 5Pwhy

You are being asked to certify that this individual has no contraindication for participation in a Scouting experience. For individuals who will be attending a high-adventure program, including one of the national high-adventure bases, please refer to the supplemental information on the following pages or the form provided by your patient. You can also visit www.scouting.org/health-and-safety/ahmr to view this information online.

Please fill in the following information:

	Yes	No	Explain
Medical restrictions to participate

Height/Weight Restrictions

If you exceed the maximum weight for height as explained in the following chart and your planned high-adventure activity will take you more than 30 minutes away from an emergency vehicle/accessible roadway, you may not be allowed to participate.

Maximum weight for height:

Height (inches)	Max. Weight						
60	166	65	195	70	226	75	260
61	172	66	201	71	233	76	267
62	178	67	207	72	239	77	274
63	183	68	214	73	246	78	281
64	189	69	220	74	252	79 and over	295

Attention Scout Parents,

For your son or daughter to carry his/her personal emergency medications (e.g., EPI pen, inhaler, Insulin, etc.) while at camp the State of Connecticut Department of Public Health requires the statement below to be signed by the individual's medical provider and attached to the camper's physical form that is retained in the camp's health lodge.

Authorization to Carry Emergency Medications

Michael Morrell

Assistant Scout Executive

Name of Camper – please print

□ has demonstrated proper knowledge and ability to carry and self administer emergency medication specific to EPI pens, Inhalers and Insulin, etc.

□ has demonstrated proper knowledge and ability to carry, but not self administer, emergency medication specific to EPI pens, Inhalers and Insulin, etc.

Please indicate medication authorized (must also be listed on health form, Part B2, medications section):

Signature of health care provider_____
