**Questions: Family Weekends — [cubfamilycamp@ctyankee.org](mailto:cubfamilycamp@ctyankee.org)**

Crazy for Science is awesome! We're on a mission to discover the craziest things in the universe! First off, we get to wear these super cool lab coats and goggles that make us look like real scientists. And guess what? We get to experiment with stuff that fizzes, pops, and learn about nature and animals and have fun with other activities — all in an outdoor laboratory.

And the best part is, we don't just learn about science, we get to do it ourselves.

Crazy for Science is where learning is like a big, fun game. You get to be a scientist, an inventor, and a little bit of a magician too. It's the place where you unleash your inner genius and have a blast doing it!

### Registration will start Feb. 1!

Early bird special register by June 15 and Cub Scouts will receive a fun lab coat and goggles.

Join the Staff:

- John Hanks Camp Director,
- Michel Hergovitch Program Chair with Barbara Richardson,
- Ed Gratrix, Shooting Sports
- Rob Gurliacci Health Director
- Karen Caiati Registrar
- Jay Lubin Advisor

### Last summer was GREAT!

We enjoyed water adventures with super slides and slip'n slides, engaging crafts, exciting shooting sports, and other activities. We're thrilled to invite you to join us this upcoming summer for another season of unforgettable family fun!
